As per time table workload is allotted to each faculty along with practicals. In the session 22-23 B.Sc. I Semester, B.Sc. I year, B.Sc. II year and M.Sc. I Sem courses are running.

**Undergraduate:**

Class	Lectures-Tutorials per Week	Total Time	Practical	Total Time
B.Sc. I Semester	12	12 Hours	05	15 Hours
B.Sc. II Year	10	10 Hours	10	30 Hours
B.Sc. III year	10	10 Hours	04	12 Hours

**Post-Graduate:**

Class	Lectures-Tutorials per Week	Total Time	Practical	Total Time
M.Sc. I Semester	12	24 Hours	07	28 Hours
M.Sc. III Semester	12	24 Hours	10	30 Hours

Each faculty member has more 36 lectures

Each text book contains approximately five Units and total credits-4

No. of Lectures for per unit- 10

Max Marks: 100

External Exam Marks: 75

Internal Assessment Marks: 25

**Assignment:** 10 marks assignment is given to students and remaining internal exam and attendance based.

**Teaching:** In teaching we use PPT, chalk-board, U-tube and ICT tools.

**Laboratory course/practicals:** Practical or experiments give a clear conceptual picture of theory. So our primary focus is to conduct maximum practicals. In experiment we can explain a complicated circuit in a simple way like measurements less than 1mm, 1mA, 1mV etc.

After completion of syllabus and practicals the internal assessment exams have been conducted by the department. In the internal assessment exam 5 marks for attendance. After evaluation of answer sheets it is found that a less no of students have problem to understand, how to answer the questions given in the paper.

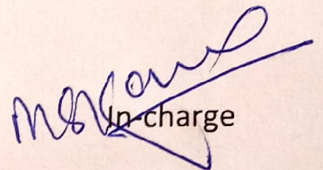

**Solution:** A special classes are organized in the department before the University examination. A sample answer sheet is shown to the students of first semester, that they can understand the pattern of a question paper. As well as induction of more and more practicals/experiments in the subject, It gives a clear picture of those students performance who have problem to understand the theory.

**Library:** College library provides books as per University syllabus.

**Best practices:** In the laboratory we used QR code for practical. Student scans QR code to study the whole experiment and conducts practicals.

Before University examination whole syllabus is completed by all faculties.
