Feedback Form for Teacher's Evaluation

In the feedback form five ratings are given 1. Average 2. Good, 3. Very good and 4. Excellent. In the Feedback five subjects are chosen to improve the overall quality.

1. Time sense
2. Subject Command
3. Teaching methods/Teaching Add
4. Helping Attitude
5. Laboratory Interaction (Only practical subjects)
6. Class control

In the below histogram numerical numbers displaying on the bar is the number of students who filled the feedback form.

AVG-Average, G-Good, V.G-Very good and Excellent

In Time sense, and Subject command the rating is above good, but in teaching methods/teaching aids and laboratory interaction the rating is between good and excellent. It shows that we have to use maximum ICT tools in teaching. ICT methods have strengthened the quality of teaching rather than chalk black board methods. In some subjects the helping attitude rating is below good. To encourage the helping attitude, we have conducted induction programmes before the beginning of the new session. It helped us to bridge the gap between the students and teachers positively.
